¹ "ex works" means that Seller delivers when making available the goods to Buyer on the premises of Seller or at another indicated location (i.e. works, factory site, warehouse, etc.) without the goods having been cleared for export and loaded on to a means of transport for pick-up. The present clause therefore constitutes the minimum obligation of Seller, with Buyer having to bear all costs and risks connected to the transport of the goods from the premises of Seller.

- 8.2 Buyer shall not have the right to withhold payments due to warranty claims or any other counter-claims that Seller has not accepted.
- 8.3 If Buyer defaults on one of the agreed payments or any other performance, Seller may either insist on the performance of the contract and
- postpone compliance with Seller's own obligations until Buyer has paid the arrears in payment or provided any other performance,
 - use a reasonable extension of the period of delivery,
 - call for the payment of the full remaining purchase price,
 - charge interest on arrears: as of the due date, in the amount of 7.5% above the respective base rate of the European Central Bank (see EU Directive on combating delays in payment of 29 June 2000), unless Buyer can claim a reason for relief under Article 11,
- or announce his withdrawal from the contract, granting a reasonable respite.
- 8.4 Seller shall reserve the ownership in the object sold until Buyer has met all financial obligations. Buyer shall comply with all required measures to safeguard the reservation of ownership. Seller is entitled to document Seller's ownership on the outside of the delivery item. In case of attachment or another form of recourse, Buyer shall have to claim Seller's ownership and to inform the latter without delay.
- 8.5 In any event, Buyer shall refund to Seller all dunning and collection costs arising as a further damage to Seller on account of the delay.
- 8.6 Any other claims of Seller against Buyer, due to Buyer's delay, than those listed in Article 8 shall be precluded.
- 9 Warranty**
- 9.1 Seller shall warrant for any defects in the design, the workmanship and the material provided and fitted by him, which appear within two years, as a maximum, though, within 3000 operating hours, as of the date at which the operating permit is granted, at the latest, though, six months as of the delivery, in case of agreed assembly by Seller three months as of the end of the assembly work. Warranty is due independent as to whether the defect already existed at the time when the goods were handed over.
- If only parts or components are the object of the contract, the warranty period shall be 12 months as of the delivery, in case of assembly by Seller as of the end of the assembly work. The rule on presumption in accordance with § 924 of the Austrian General Civil Law Code is precluded.
- 9.2 The warranty obligation does not apply to defects that are due to non-compliance with applicable operating conditions, service and maintenance conditions, improper treatment, inappropriate maintenance, inappropriate use or normal wear. Warranty does not extend to defects due to force majeure, excessive soiling, fire and other external impact.
- The warranty obligation shall cease if a person not expressly authorized by Seller makes any changes and/or repairs on the delivered system.
- If the repair was performed by a qualified person, and customer is able to prove that the repair is not the reason for the subsequent defect, the aforementioned stipulations shall not apply.
- 9.3 If a system is produced according to design data, surveying reports, drawings or other information provided by Buyer, Seller shall not be obliged to warrant for the correctness of this information, but only for the workmanship on the basis of this information. Nor shall Seller be obliged to check instructions by Buyer, or documents provided by Buyer, for their correctness. However, Seller's duty to warn regarding obviously incorrect instructions/documents shall continue to apply.
- 9.4 If Seller has fitted components provided by Buyer, Seller's warranty obligation shall only extend to the fitting work but not to the components/the material. Seller shall not be obliged to examine the component provided by Buyer/the material provided by Buyer for its fitness. However, Seller's duty to warn regarding obviously unfit components/materials shall continue to apply.
- 9.5 When delivering used components and used systems, Seller shall not provide any warranty.
- 9.6 Buyer must inform Seller immediately and in writing of any defects that have appeared in order to preserve his warranty claim. Defects that appear within the time frames indicated in Item 9.1 and of which Seller is informed without delay, may still be claimed in court by Buyer one year after expiry of the period indicated in Item 9.1.
- 9.7 If Seller has to warrant for defects in accordance with the aforementioned provisions, he shall comply with his warranty obligation at his choice by repairing or replacing the defect. Other means of warranty for remediable defects shall be precluded. Cancellation of the contract for non-remediable defects shall be precluded
- The replaced components or systems shall become Seller's property.
- 9.8 If components must be disassembled and assembled for improvements pursuant to Item 9.7, customer shall bear the costs thereof, if the assembly was not part of the contract.
- 9.9 An improvement pursuant to Item 9.7 does not extend the warranty period for the entire system. The warranty period for repaired or replaced components or for improvement work shall be six months, in any event, as of the making of the improvement or the replacement, without the foregoing restricting Item 9.1. Items 9.2, 9.4 and 9.5 shall apply in analogy. The rule on presumption according to § 924 of the Austrian General Civil Law Code shall be precluded.
- 10 Damages**
- 10.1 The mere appearance of a defect within the period indicated in Item 9.1 does not give rise to a breach of contract.
- 10.2 Defectiveness
Seller shall not have any obligation to damages, in addition to the warranty obligation, for any defects of the deliveries or performances.
- 10.3 Consequential Damage of Defects
Seller shall not be liable for any damage which it was impossible to anticipate as a possible consequence of a breach of contract at the time of entering into the contract. Seller's obligation to damages for other consequential damage of defects, e.g. loss of profit, is ruled out as being a minor negligence. For gross negligence, damages are limited to EUR 7,500.00 for a net order sum of EUR 150,000.00, and for higher net order sums to 5% of the respective value, the maximum, however, being EUR 360,000.00.
- 10.4 Product Liability
The delivered item provides only the safety that may be expected on the basis of the respectively valid admission regulations, acceptance tests and operating regulations.
- 11 Reasons for Relief**
- 11.1 The following circumstances shall be deemed to be reasons for relief, if they appear after the contract has been made and obstruct contract performance: labour disputes and all circumstances separate from the parties' will such as, for example, fire, mobilization, confiscation, embargo, prohibition of foreign-currency transfers, riot, absence of means of transport, general dearth of supply goods, restrictions of energy consumption.
- 11.2 The consequences of such circumstances regarding the obligations of the parties are determined by Items 6 and 8.
- 12 Place of Jurisdiction, Applicable Law, Place of Performance**
- 12.1 The place of jurisdiction for all disputes arising directly or indirectly from a contract shall be the relevant Austrian court with competences for Seller's principal place of business.
- Seller may, however, also resort to another court with jurisdiction for Buyer.
- 12.2 The Contracting Parties may also agree that an arbitral tribunal has jurisdiction.
- 12.3 Contracts shall be subject to the law applicable to Seller.
- 12.4 The Convention of the United Nations on Contracts for the International Sale of Goods of 11 April 1980, Federal Law Gazette 1988/96, shall expressly be precluded.
- 12.5 Seller's principal place of business shall be the place of performance for deliveries and payments, also in the event that the transfer is agreed to be in a different place.
- 12.6 In the event of disputes arising from the present certified translation of the contract, the German text shall prevail.

- 6a.7 If only immaterial defects (defects that do not significantly impair the function and/or purpose of the goods delivered) are detected during the acceptance test, the goods delivered will, at all events, be deemed accepted.
- 6a.8 If material defects are detected, the Seller shall remedy such defects without delay. After remedying, the Buyer shall receive a notice of remedying.
- 6a.9 In the event of the Buyer failing to accept the goods delivered at the agreed place and/or at the agreed time, the Seller shall be entitled either to insist on performance of the contract and performance of the obligation to pay according to contract or to withdraw from the contract. - 8.3a.3 Without prejudice to any claims for damages, the following shall apply in the event of withdrawal from the contract: any performance already effected in whole or in part shall be invoiced and shall become due for payment immediately; this shall also apply to any goods delivered and services provided, including any advance performance already effected, but not yet accepted by the customer.
